

Fisher® D2 FloPro Control Valve

The Fisher D2 FloPro control valve is a compact, rugged valve designed for on-off control. This valve is ideal for use as a dump valve on gas separators and scrubbers. It is also well suited for other high pressure applications in natural gas production, compression, and processing. The D2 FloPro valve has threaded end connections and is available in an NPS 1 globe style valve body.

Features

- **Field-Selectable Flow Rates**—The FloPro feature allows easy setting of 0.25, 0.375, and 0.5 inch flow rates, eliminating the need for more than one port size. See figure 2.
- **Trim Options**—The valve plug and seat ring are available in S17400 double H1150, or solid R30006 (Alloy 6) for erosive service.
- **ENVIRO-SEAL™ D2 Packing System**—The ENVIRO-SEAL D2 packing system provides an improved stem seal to prevent the loss of valuable or hazardous process fluids or gases. It features live-loading, providing reduced packing maintenance.
- **NACE MR0175/ISO 15156 Service- Ready**—Sour service trim is the standard construction for the D2 FloPro control valve. The materials of construction meet the metallurgical requirements of NACE MR0175/ISO 15156. Environmental limits may apply.
- **CL900 Service**—Valve assembly is designed and specified for ASME B16.34 CL900 service.
- **Low Temperature Materials**—Valve and actuator construction materials allow use in low temperature applications of -46° C.
- **Field-Reversible Actuator**—The D2 FloPro actuator can be converted in the field from Air-to-Open to Air-to-Close actuator action. (Conversion to Air-to-Close actuator action requires removing four springs from the actuator casing configuration.) (Conversion to Air-to-Open actuator action requires adding four springs to the actuator casing configuration.)
- **Easy Installation**—Compact design allows installation where space is at a premium.
- **Easy Maintenance**—Screwed bonnet/body joint allows repair or maintenance with a minimum of tools and without removing the valve body from the piping system.
