Date: 1st September 2019
Subject: Distribution of Brooks Instrument in the United Kingdom

Dear Sir/Madam

I am pleased to confirm that **BKW Instruments Ltd** is authorised to distribute the Brooks Instrument products in the United Kingdom from 1st September, 2019.

Since 1946, Brooks Instrument has been a leader in precision fluid measurement and control technology. Providing instrumentation for flow, pressure and vaporisation, the company serves customers in pharmaceutical and biopharmaceuticals, semiconductor manufacturing, fibre-optic & thin film manufacturing, solar cell, LED, alternative energy, Oil & Gas, Refining, Chemical and Petrochem research.

The Brooks Instrument portfolio includes:

- Metal tube Variable Area (VA) flow meters
- Glass tube Variable Area (VA) flow meters
- Polycarbonate tube Variable Area (VA) flow meters
- Thermal Mass Flow meters and controllers
- Coriolis Mass Flow meters and controllers
- Pressure controllers and regulators
- Flow accessories.
- Verification, calibration and services.

BKW Instruments Ltd are an instrumentation company based in Manchester, with over 80 years' experience within the process industries. They provide a number of benefits including partnerships with some of the worlds' largest instrumentation brands. Within these partnerships BKW offer sales and technical guidance for product and application selection as well as local added value via their world-class manufacturing facility, and a comprehensive capability for service & calibration support.

Brooks believe BKW are the right partner for you for flow measurement and control equipment to the process industries, research establishments and laboratories.
